

SCOPE OF WORK:

Preformed an economic analysis based on market trends and historical utility pricing to make an advised decision whether to enter into an alternative supply contract for both electricity and natural gas.

Conducted a reverse auction to obtain competitive electricity and natural gas supply pricing.

PROJECT
OUTCOME:

ELECTRIC

Based on analysis customer chose to enter into an alternative supply contract.

Customer received electric supply savings of **\$70,000** against utility pricing during 2015-2016 fiscal year.

NATURAL GAS

Based upon analysis, customer was advised to decline a natural gas contract.

Customer received natural gas supply pricing savings in excess of **\$60,000** by staying with the utility versus accepting an alternative supply contract.
